

Goodge Street Under Threat - AGAIN !

You may remember that in 2007 we got a scheme turned down for the REDEVELOPMENT OF THE BUILDINGS AT THE GOODGE STREET AND TOTTENHAM COURT ROAD CORNER.

Recently, a new and equally damaging proposal has been put in for planning permission.

It again involves the demolition of no. 1-3 Goodge Street - only keeping the façade.
1-3 Goodge Street is the oldest building in the street (Georgian, built 1763). Internally, it retains many original features, and has a very unusual plan layout - all of which will be lost.

The scheme also involves the redevelopment of the corner building with a replacement which, both in terms of design and materials, is more Las Vegas than Goodge Street !

TO STOP THIS FURTHER DESECRATION OF FITZROVIA, YOU NEED TO WRITE BY FRIDAY 29th JULY TO CAMDEN'S PLANNING TEAM AND OBJECT by email or by letter:

email to: env.devcon@camden.gov.uk

or letter to: Development Control, Planning Services, Development Management Team,
London Borough of Camden, Town Hall, Argyle Street, WC1H 8EQ.
