

The Grounds Maintenance (GM) contract which is undertaken by idverde delivers multiple services at Whitfield gardens these are shown in the table below.

Asset	Task	Task Notes
Site Check	To check the site to ensure it safe to remain open	The site inspection often triggers litter picking and other waste removal. These additional tasks are not contractual and are completed at no additional cost. idverde have been working with Camden to address the ongoing issues.
Litter clearance	On Monday a team with a vehicle visits the site and complete a litter pick and also remove bulk items.	This task is contractual task
Shrubs	Maintain Shrub Beds	Task is completed once a month
Shrubs	Remove Weeds, litter, leaves, debris	Task is completed once a month
Hedges	Maintain extension growth within 200mm	This is a performance item
Hedges	Remove weeds, litter, leaves and debris	This is a performance item
Hedges	Maintain hedge base	This is a performance item
Hard Standing	Spot treat hard surfaces with herbicide	This is a frequency item, which is completed 3 times a year. Currently this task has been stopped and we are trialling a foam alternative to using glyphosate at his site.

The Annual GM total for Whitfield is: £1,183.76. This figure is was calculated using the current contract costs.

idverde also complete ad-hoc clearance and reduction works when necessary. For example,

shrub bed deep cleanse and reduction of shrubs for air con units etc. This also includes working with The Fitzrovia Partnership on additional clearances for their events and improvements to the site. These tasks are reactive and not on a schedule therefore we do not have works records.
